

TO HELP DRIVE OUR SAFETY CULTURE *home*

I PLEDGE TO:

- Refrain from contacting my colleagues and staff members via cell phone or text during times that I know to be their drive-time.
- Not expect immediate responses to calls or texts because my colleagues and staff members may be driving when I am attempting to reach them.
- Work with my staff members to put together a plan for acceptable response times and back-up contacts in the event they are driving when I need to reach them.
- Ensure none of my colleagues and staff members are driving while participating in conference calls.
